I was thinking a single regional POC for all Region 1 monuments. While we still need to iron out the details, I'm expecting that there will still be a real need for monument-level FWS input on the marine monument evaluations

On May 12, 2017, at 6:35 PM, Thorson, Robyn <robyn_thorson@fws.gov> wrote:

Thanks for your message, Jeff. We're glad to provide input to the DOI monuments review. We'll provide the POC information Monday.
I read your message a few times and it appears you're requesting a Region One POC for Hanford (the terrestrial monument) and that you don't need a POC for the marine monuments at this time (because NOAA is handling that review and data call). Did I get that right? Or are you looking for more than one Region One POC?

In terms of a DOE POC at Hanford, we will forward that Monday after first confirming the name with DOE, as a courtesy. This will not be difficult: FWS has a strong working relationship with DOE.

Again, count on us for information and assistance. We'll start today on the data requests.

Robyn

Robyn and Wendy, yesterday Betsy and I participated in a meeting with Randy Bowman, who is coordinating the Department's Monument review, and other bureau and Dept contacts. I'm forwarding the agenda from the meeting and the information that was shared with us including, EO 13792, the data call information being requested, and the Public Notice requesting comments-all attached

Our response to the data call is due in three weeks on June 2. There are still a few details to sort out, but we wanted to give you all of the information that we have at this time.

For the Hanford evaluation we still need to figure out the DOE contact to notify, but assume that the region works with someone locally and that contact could suffice or help identify someone.

The EO designated Commerce to lead the marine monuments review and we are waiting for the official NOAA contact (we know it will be Michael Weiss but need to wait until their leadership officially designates him). Once that happens, we'll need to determine how to coordinate the review with them. A Navy contact, John Pearson called into the meeting and the Dept is still working with DHS to identify someone from the Coast Guard.

BIA will be leading tribal listening sessions because there is no official proposal to formally consult on.

In addition to the data call, HQ EA is looking to see if there was any subsequent legislative action for any of the monuments we're administering. We are also working with the Dept to process all of the public comments that will be coming in over the next 60 days.

That's what we know for now, as we get more information we'll share it. If you could identify a POC from your region we can work with them early next week to hammer out more of the specifics for our response and develop a timeline.

Please share your initial thoughts and more to come, thanks--Jeff

Subject: Agenda for tomorrow Monument Review Team meeting

Monument Review Team Initial Meeting Agenda

May 11, 2017, 10 am, Room 6122

Mission Summary

Introductions

Initial data call (attached to transmittal email) discussion

initial impressions on how much of this is likely to be available and how long
to assemble

Tentative due dates Bears Ears and Grand Staircase/Escalante Tuesday 5/16

 All others Friday 6/2

Options to guide review

Help with public comments

Marine Monuments - with NOAA, possibly others

Other agencies DOD and Forest Service, Energy, Homeland Security, others

Other suggestions , comments, questions

Next meeting next week, to be determined by availability of Downey Magallanes of Sec.
staff any times members not available?
